

In association with other organisations such as Austroads and Standards Australia, ARRB develops and delivers high level training workshops and explanatory seminars using its in-house technical experts, specialist consultants and road authority staff. ARRB is focused on providing innovative training solutions for clients to ensure knowledge is transferred and continuous improvement is achieved in the design and management of transport assets.

CALENDAR OF EVENTS

Please note, further information regarding any of the workshops listed below is outlined on the following page(s)

Dates and locations are subject to change.

VICTORIA

- **Geotechnical & Drainage Design workshop** 4-5 August 09, Melbourne

WESTERN AUSTRALIA

- **Unsealed Local Roads workshop** 11-12 May 09, Bunbury
- **Unsealed Local Roads workshop** 14-15 May 09, Broome
- **Speed Limits & Speed Management workshop** 21 July 09, Perth
- **Speed Limits & Speed Management workshop** 23 July 09, Albany
- **Managing Road Pavement Assets workshop** 18-19 August 09, Bunbury
- **Geotechnical & Drainage Design workshop** 8-9 September 09, Perth

SOUTH AUSTRALIA

- **Unsealed Local Roads workshop** 22-23 June 09, Murray Bridge
- **Unsealed Local Roads workshop** 25-26 June 09, Port Augusta
- **Speed Limits & Speed Management workshop** 28 July 09, Adelaide
- **Managing Road Pavement Assets workshop** 25-26 August 09, Adelaide
- **Geotechnical & Drainage Design workshop** 15-16 September 09, Adelaide

QUEENSLAND

- **Speed Limits & Speed Management workshop** 12 May 09, Brisbane
- **Speed Limits & Speed Management workshop** 14 May 09, Cairns
- **Managing Road Pavement Assets workshop** 19-20 May 09, Brisbane
- **Geotechnical & Drainage Design workshop** 28-29 July 09, Brisbane

AUSTRALIAN CAPITAL TERRITORY

- **Planning & Design of Parking Facilities workshop** June 09, Canberra
- **Geotechnical & Drainage Design workshop** 13-14 October 09, Canberra

NORTHERN TERRITORY

- **Unsealed Local Roads workshop** 29-30 June 09, Alice Springs
- **Unsealed Local Roads workshop** 1-2 July 09, Katherine
- **Geotechnical & Drainage Design workshop** 21-22 July 09, Darwin

NEW SOUTH WALES

- **Managing Road Pavement Assets workshop** 21-22 July 09, Albury-Wodonga
- **Geotechnical & Drainage Design workshop** 20-21 October 09, Sydney
- **Local Area Traffic Management workshop** Sydney
- **Investigation & Treatment of Crash Locations workshop** Sydney
- **Traffic Control and Communication Devices workshop** Sydney

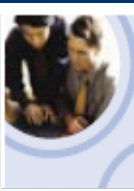

TASMANIA

- **Basic Geometric Design workshop** 28-30 April 09, Hobart
- **Speed Limits & Speed Management workshop** 17 June 09, Hobart
- **Geotechnical & Drainage Design workshop** 11-12 August, Hobart

NEW ZEALAND

- **Geotechnical & Drainage Design workshop** 2-3 September 09, Auckland
- **Speed Limits & Speed Management workshop** 12 October 09, Auckland
- **Speed Limits & Speed Management workshop** 14 October 09, Wellington
- **Speed Limits & Speed Management workshop** 16 October 09, Christchurch
- **Managing Road Pavement Assets workshop** 24-25 November 09, Location TBA

PLEASE Check the ARRB website conferences and training section (www.arrb.com.au/workshops) for latest information and registration of interest to attend these courses.

WORKSHOP DESCRIPTIONS

Austroads Guide to Traffic Engineering Practice Part 4 - Investigation and Treatment of Crash Locations:

A two day workshop based on the Austroads GTEP4 that covers the latest practice applying to the investigation and treatment of crash locations.

Austroads Guide to Traffic Management Part 8 - Local Area Traffic Management: *An instructional two day workshop based on the background material supporting the new edition of the Austroads Guide to Traffic Management Part 8. It covers material relating to best practice techniques, available resources, design principles, device selection, special needs of different road users, legal issues and a case study syndicate exercise to provide hands-on experience applying the latest best practice. Please note this workshop now replaced the GTEP Part 10: LATM workshop.*

Basic Geometric Road Design: *A three day hands-on workshop to provide new graduates, draftpersons and technicians with a practical understanding of basic geometric road design.*

Geotechnical and Drainage Design: *A two day workshop based on the Austroads Guide to Road Design Part 5 – Drainage Design and Guide to Road Design Part 7 – Geotechnical Investigation and Design*

Managing Road Pavement Assets: *This workshop was previously known as Road Network Management. These workshops are based on the extensive research and consulting work undertaken by ARRB and the various studies and guides issued by Austroads.*

Planning and Design of Parking Facilities: *A two day workshop based on the Austroads Guide to Traffic Management Part 11 – Parking, which covers the latest practice applying to parking facilities.*

Speed Limits and Speed Management: *A one day workshop based on the Austroads Guide to Road Safety Part 3 – Speed Limits and Speed Management and Guide to Traffic Management Part 5 – Road Management.*

Traffic Control and Communication Devices: *A two day workshop based on the Austroads Guide to Traffic Management Part 10 – Traffic Control and Communication Devices.*

Unsealed Local Roads: *A two day workshop on the latest practices in the management of unsealed roads based on the popular ARRB Unsealed Roads Manual.*

Further information on these workshops visit our website www.arrb.com.au/workshops or email training@arrb.com.au or call our Event Coordinator on +61 3 9881 1555
