Where: The Midfield Group
Abattoirs Site
McMeekin Road
Warrnambool

Date: Friday 25 June, 2010.
4:00pm Start

RSVP: Friday 18 June, 2010.

Department of Planning
and Community Development

Engineers Australia - South West Group and Institute of Public Works Engineers Australia (IPWEA) is proposing a joint gathering. The event will cover two diverse topics with an industry tour of The Midfield Group Abattoir Plant and a briefing from the Department of Planning and Community Development.

The Midfield tour will look at their Geothermal Bore, Cogeneration Plant, RO Plant, briefings on the process and Robotic Equipment. The DPCD would like to brief us on reforms to their operations and strategies for the district. Both should be informative and interesting, it will be an opportunity for our members to network and learn more about major businesses in our region.

The program for the tour is as follows:

- 3.50pm sharp – Meet at plant reception.
(Parking on corner of Albert St & McMeekin Rd.)
- 4.00 – 5:30 Tour of site followed by general discussion and question opportunity.
- 5:30 – 7:00 Relocate to dinner venue (TBA). Drinks & Nibbles followed by DPCD briefing.
- 7:00 – 9:00 Dinner, Discussion, Review & Networking
(Costs will be subsidised by EAVic-SW & IPWEA)
- 9:00pm – close.

Note that all attendees will need to bring and wear their own completely enclosed footwear (no heels), and that no video, camera or mobile phone equipment will be allowed past the entry gate.

We would welcome your attendance at this event, so please register prior to Friday 18th June, 2010 via one of the contact options below. Partners welcome to attend.

Please indicate your name, organisation, contact telephone number and email address. Please indicate whether you are attending the tour and/or dinner.
