# EastLink Interchange

# Project Planning

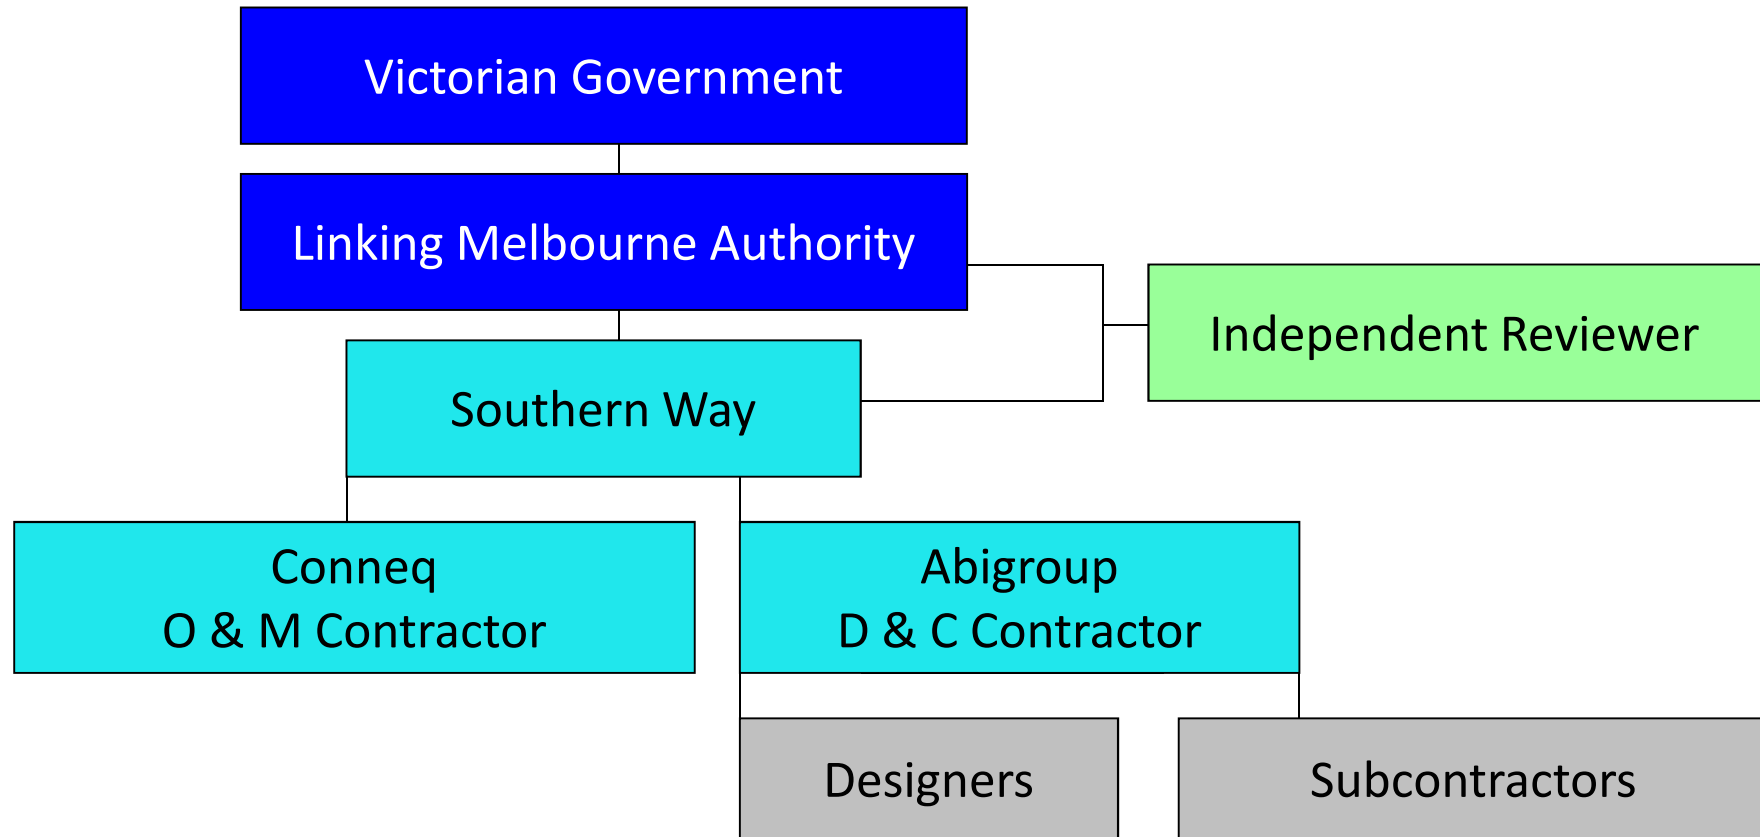

- Environment Effects Statement (EES) completed in mid 2009.
- Public exhibition (2008)
- Independent planning panel inquiry (2009)
- Minister for Planning's recommendations
- Development of the Pines Flora and Fauna Reserve Draft Master Plan.

# Timing

2008	Planning study for Peninsula Link completed
March 2009	Expressions of Interest invited
January 2010	Contract awarded to Southern Way
February 2010	Southern Way establishing team and offices
2010	Design
2010-2013	Construction
Early 2013	Open to traffic

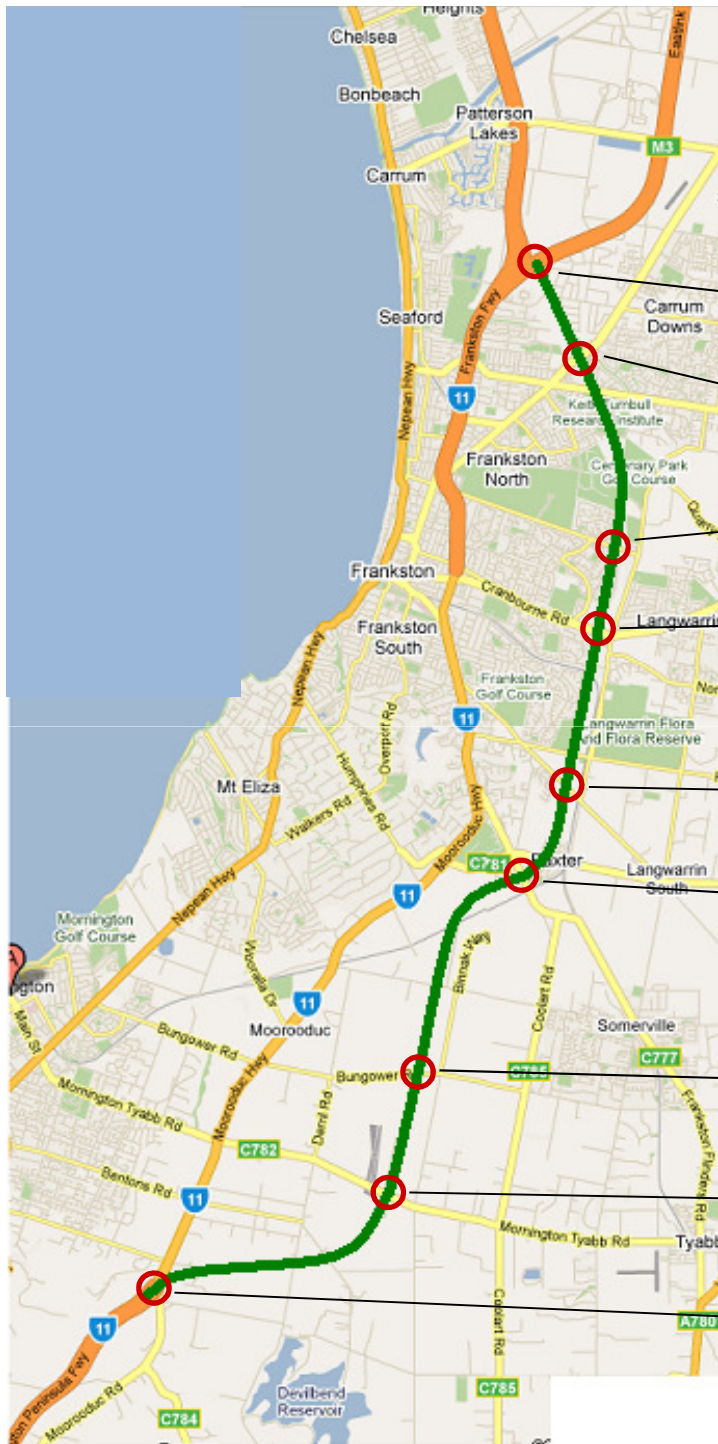

# Who's involved?

- Length – 27km
- 4 lane freeway
- 11 local road connections
- 38 bridges
- Around 3 million m<sup>3</sup> earthworks
- 18,000m<sup>2</sup> of retaining walls

# Local Road Connections

**EastLink & Mornington Peninsula Fwy**

**Frankston-Dandenong Rd**

**Skye Rd**

**Cranbourne Rd**

**Golf Links Rd**

**Frankston-Flinders Rd**

**Bungower Rd**

**Mornington-Tyabb Rd**

**Mornington Peninsula Fwy &  
Moorooduc Rd**

- 25km of new paths starting at Patterson River
- Designed to enhance connectivity
- Three bridges:
  - Thompsons Road
  - Frankston Freeway
  - over Peninsula Link near Stony Point Rail

- Integrated approach
- Public art linked to McClelland Gallery
- Extensive landscaping (1.5 million plants)
- Distinctive architectural features
  - Noise, light and retaining walls
  - Bridges
  - Landform

# Delivery model

- Not a toll road
- Availability Public Private Partnership
- 25 year contract following completion
- Key Performance Indicators
  - Traffic lane availability
  - Incident management
  - Asset maintenance

# Key Challenges

- EastLink Interchange
- Pines Flora & Fauna Reserve
- Westerfield
- Environmental Management

LINKING  
MELBOURNE  
AUTHORITY

# Environment Management

- Threatened Species Management Plan
- Southern Brown Bandicoot Management Plan
- Environment Management Strategy & Plans
- Extensive landscaping
- Native vegetation offsets
- Pines flora and Fauna Reserve revegetation
