Launch Event: Year of Humanitarian Engineering

Australia's Approach to Disaster Management - *Building Capabilities*

Speaker: Mr Peter Baxter, Director General, AusAID

Date: Thursday, 10 March 2011

Time: 12.00pm for 12.20pm - 2.00pm

Venue: Palladium Ballroom, Crown Towers

RSVP: Friday, 25 February 2011

Register online at www.engineersaustralia.org.au/vicfellows

Engineering occupies a very significant place in both development projects and disaster relief.

Construction of schools, medical clinics, water supplies, roads and bridges are fundamental projects in developing communities. Re-construction of areas affected by disaster generally arises after the immediate post-impact phase and embraces the principle of "building it back better".

Australian engineering companies as well as individual engineers have been active in the Australian aid programme in the past and will need to prepare for the future.

To launch 2011 as the **Year of Humanitarian Engineering**, Mr Peter Baxter, Director General, AusAID, will discuss the important contributions engineers have made to disaster relief and recovery.

Payment Costs - Including GST (Register Online):

Fellow of Engineers Australia	\$79	Member	\$94
Senior/Concession	\$79	Non Member	\$104
Corporate Table (Table of 10)	@ \$940
