

Secrets of Successful Communication for the Public Works Practitioner Webinar

Join David Powell to find

- Tips on gaining credibility through effective communication to the community
- Trends in communication tools used in local government organisations in US and UK and applications for these in Australia
- What style of writing should a public works engineer use to communicate ideas?
- Role of technology in local government communication

Thursday 20th October 2011, 12:30pm – 1:00pm

At Your Desk!

No need to travel

Institute of
Public Works
Engineering
Australia

Sponsored by:

The Institute of Public Works Engineering Australia (IPWEA) is a professional organisation providing member services and advocacy for those involved in and delivering public works and engineering services to the community. This event is part of our information series of events to encourage and develop the skill base of public works professionals.

David Powell is currently the Director Environment and Infrastructure at Boroondara City Council. He is also a Board member of IPWEA vic. He participated in a MEFvic international study tour in 2005 with his research topic connected with communication in the work place. David has many years experience in communication practices as a public works practitioner.

Format: David will give a 20 minute presentation and then answer questions relating to the presentation. Slides will be made available to all participants after the session.
