30 APRIL - 2 MAY 2014
Pullman Albert Park, Melbourne, Victoria

Outline: **Major Infrastructure Projects Workshop**

Date: Wednesday 30th April

Time: 9:00am to 4:00pm

Venue: Park Room, Pullman Hotel, Albert Park

This workshop is being staged in conjunction with the [2014 LGMA National Congress and Business Expo](#) in Melbourne between 30th April and 2nd May.

Development and implementation of major infrastructure projects requires significant multi-disciplinary skills and expertise.

Of the 565 councils there aren't many, other than the capital cities and major metropolitan councils, with day to day capacity to implement major infrastructure projects.

In recent years councils tackling major infrastructure projects have found themselves increasingly dealing with more and more complex issues.

This workshop is designed for councils planning and implementing major infrastructure projects. The workshop will highlight issues councils should consider when preparing for and delivering major infrastructure projects. To assist us in exploring these issues LGMA has arranged a panel of experts to assist:

Darrin Grimsey Partner, Ernst & Young	Business planning for major infrastructure projects
Jeremy Beer Associate Director, Ernst & Young Rob Donegan National Manager Local Government, Commonwealth Bank of Australia	Alternative financing options for major infrastructure projects – Local Government enters the Bond Market

Mark Taylor Regional Business Development Manager Downer EDI	Alternative delivery options for major infrastructure projects
Greg Campbell Partner, Maddocks	Procuring major infrastructure projects
Steve Osborne Managing Director – Construction and Surety, JLT Jonathan Frost Divisional Manager – Construction and Surety, JLT	Managing construction risks for major infrastructure projects

This workshop is designed for CEOs, Executives and project managers preparing for and delivering major infrastructure projects. This one day workshop will enlighten participants of the issues to be considered and ready them for preparing and delivering major infrastructure projects.

The workshop will inform the delivery of large, complex or innovative infrastructure projects and related services. It will also extend to a wide range of infrastructure maintenance and renewal projects, as well as new infrastructure developments.

Registration

The cost for attending this workshop is \$120.00. If you have already registered for the Congress you can extend your registration by contacting Conference Design on mail@conferencedesign.com.au or 03 6231 2999. Or
